FOR IMMEDIATE RELEASE

SOFEC Awarded CALM Buoy and PLEM System in Thailand

Houston, 7 April 2025 – SOFEC is pleased to announce that it has been awarded an EPC project for the supply of a replacement CALM Buoy and PLEM system in Thailand for an undisclosed client. The project owners operate some of the most advanced and complex refineries in the Asia-Pacific region. SOFEC's President and CEO, Arun Duggal says: "SOFEC is excited to support our clients with this opportunity utilizing SOFEC's proven CALM Buoy design and are grateful for trusting SOFEC with providing a state-of-the-art system with high-specification equipment that will support their critical operations for the next 30 years."

The CALM Buoy will be moored in a water depth of 26 meters, designed to berth tankers up to 320,000 DWT and support the import of up to 60,000 barrels per hour of crude oil and condensate.

About SOFEC

With over 50 years of experience, SOFEC, Inc. is a leading provider of turnkey mooring solutions, offering a comprehensive range of field-proven products and services. SOFEC's products include internal / external turret and spread mooring systems, tower / submerged yoke mooring systems and import/export CALM Buoy marine terminals.

SOFEC can assist with early concept selection or FEED services and provide full EPC services including engineering, design, fabrication, installation, delivery, and aftermarket support.
